

Underwood Distributing: Quality Calculators and Supplies for Business and School

Underwood Distributing

FXCG10 PRIZM

\$128.95

PRIZM™ creates a whole new way to learn math by enabling students to experiment by creating their own graphs over pictures of real-life scenes, and then understand the functions from the graphs that they created on their own.

•

Natural Display Input/Output

High resolution LCD display with over 65,000 colors

Casio "Picture Plot" technology-infusing real-life images into math

Color link and Conditional Formatting for graphs, charts and spreadsheets

Capable of graphing X-relations

Built-in graphing of conic sections

Streamlined solving for intercepts, intersections, etc.

Easily calculate values for given independent/dependent values

Interactive Equation Solver

Ability to edit previous entries

Statistics regressions and graphical displays

Data-collection compatible (with separate EA-200 device)

Spacious 3.17" LCD Screen with over 82,000 pixels

Statistics Residual Calculations

Numeric differentiation and integration

Recursive sequences

Direct-connect to compatible projectors

Matrix operation and inverses

USB-to-computer connectivity

NOT a Computer Algebra System (CAS)

Permitted on all major exams.

Â

Dimensions: 0.81" x 3.52" x 7.42"

Approximate Weight: .51 lb. (including 4-AAA alkaline batteries)
